

# ALDEN LAKE LAND

SHORT-TERM REHABILITATION AND HEALTH CARE

## Onsite Dialysis May Help Make Life Easier

### *Get quality kidney care at Alden Lakeland Rehabilitation and Health Care*

If you're a kidney patient moving from hospital to a skilled nursing facility or rehab center, you should know dialysis usually requires frequent travel to and from a center. This may feel inconvenient, disruptive and stressful.

Now, onsite dialysis offered by DaVita® Post-Acute Services and Alden Lakeland reduces the need for travel. By reducing travel, treatment is more convenient and consistent, and you can have more time for the things you enjoy.

### Specialized Care, Support and Resources

**Expert DaVita Team** – Living in a residence with DaVita Post-Acute Services means you get care from the same dedicated providers as in a DaVita clinic without leaving home, as well as medical director oversight and a highly trained clinical staff.

**Extensive Patient Support Resources** – DaVita offers an extensive library of award-winning patient education, including Kidney Smart®, Start Smart™ and Transplant Smart® services and materials.

**Proven Clinical Programs** – DaVita partner-residences also offer clinical programs aimed to help keep you at home and out of the hospital.

**Complete Coordinated Care** – DaVita onsite kidney care lends itself to better communication and care coordination between your DaVita and residence staff, so they can tailor your care based on your health needs.

**Care Plan Consistency** – If you were already receiving dialysis in a center three times a week, you can avoid disruption to your treatment plan with continued three-times-a-week treatment.

### Why DaVita Post-Acute Services?

In 2019, DaVita  
patients avoided  
**100,000**  
hospital days.<sup>1</sup>

DaVita is the  
dialysis provider of  
choice for more than  
**200,000**  
people across  
the nation.

After  
**20+ years,**  
DaVita continues to  
be a leader in clinical  
innovation and  
high-quality care.

## Specialized Care, Support and Resources

DaVita's experience in kidney care helps us provide safe and high-quality care. You can trust in DaVita's status as a national leader in care delivery, clinical innovation and patient experience. In fact, DaVita is the provider of choice for hundreds of thousands of people on dialysis and offers convenient care through more than 2,700 outpatient centers and 1,000 hospitals.

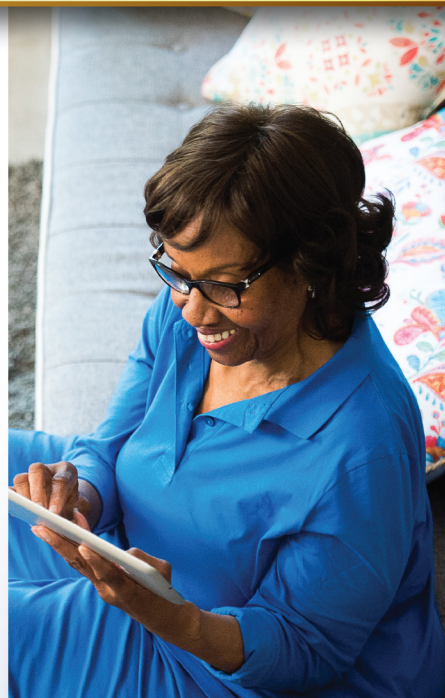

## A New Opportunity for Dialysis Patients

If you're one of the estimated 50,000 (1 in 10) dialysis patients who will be or are currently living in a skilled nursing residence, you have the new opportunity to experience an easier care transition, more convenient and consistent care, and more time for yourself and your interests.<sup>2</sup> Make the most of your opportunity with a known and trusted leader in kidney care.
